

Government of Odisha, India

Aluminium Park Angul, Odisha India

An exclusive state-of-the-art industrial park for ancillary and downstream industries for
alumina and aluminium

Sector Highlights

- Largest producer of Aluminium; 54% of Total Aluminium Smelting capacity of India
- Capacities
 - National Aluminium Company (NALCO) with smelting capacity of 345,000 TPA
 - Vedanta with smelting capacity of 500,000 TPA
 - Aditya Birla with smelting capacity of 145,000 TPA
- Committed availability of feedstock from the mother plants

Project Snapshot

- 223 acres of exclusive ecosystem for downstream and ancillary set up through a joint venture
- USD 29 million investment in infrastructure
- Amidst a existing vibrant industrial eco system adjacent to NALCO facility
- First-of-its-kind in the sub-continent with a facility for directly obtaining molten aluminium from the smelter

Project Features

- **Master Plan:** State-of-the-art master plan in a natural scenic environment with industrial and commercial facilities, large open spaces with utility corridors and efficient road networks.
- **Exclusive Common Facilities:** Development of Aluminium Product Evaluation Centre (APEC) with full-fledged tool room, process hall, testing facilities, simulation and evaluation facilities, prototype development facilities etc.
- **Skill Development Centre:** Exclusive Training Centre with state-of-the-art equipment and modern classrooms with training modules for skill upgradation
- **Logistics Facilities:** Logistics infrastructure facility, secured parking lots and 24/7 surveillance system
- **Business Centre:** Park administration, security and services offices, conference, convention, display and trade facilitation services.

Key Advantages of the Project

- **Established Logistic system:** Strategically located abutting NALCO smelter plant near NH-42 and proximity to International airport (100 kms) and Sea port (174 kms)
- **Vibrant Industrial ecosystem:** The development is surrounded by Industrially developed region and well-established presence of suppliers of raw materials, spares, buyers and other associated services
- **Molten metal:** Committed molten metal for units being set up in the industrial park and an exclusive access controlled road for carriage of molten metal
- **Power Supply:** 24/7 availability of the required power from National and State Power Grid.
- **Water:** Availability of abundant water from the perennial Brahmani River
- **Rail Network and Siding facility:** Railway siding abutting the development at Bhdhapanka and rail network connected to all major ports and markets
- **Skilled Resources:** Availability of large pool of skilled and semi-skilled manpower and presence of national institutions of higher learning and research institutions in the State.
- **Exclusive Policy:** Exclusive Downstream Policy to boost production and attract investors under preparation.
- **Enabling diversification:** The Smelter unit, Calcined Petroleum Coke, Aluminium Fluoride, Coal Tar Pitt and many downstream units to cater to the needs of food processing, construction, packaging and health care industries.

Opportunities

Downstream Industries in Aluminium

- Conductors
- Extrusions
- Castings
- Foils
- Others including Powder

Ancillary Industries (Raw Material Inputs)

- Ancillary Industries (Raw Materials Inputs)
- Calcined Petroleum
- Special Refractory Bricks
- Cryolite
- Caustic Soda
- Aluminium Fluoride

Policy Framework

- Government of Odisha is a pioneer in implementing the “Ease of Doing Business” and committed to simplify the processes and expedite project approvals.
- Aligning its objective with the national framework, Government of Odisha has identified many manufacturing industries as priority sectors and has an attractive incentive framework
- Government of Odisha is also committed in providing 24x7 power, dedicated industrial feeder and quality physical infrastructure and common facilities
